CAREER INTELLIGENCE™

STRATEGY BY DESIGN

The Career Intelligence™ Intensive One-day Program is designed for professionals currently in middle leadership executive positions who have aspirations for future senior leadership roles.

Today's leaders appreciate that the volatility, unpredictability, complexity and ambiguity (VUCA) that characterise the current operating environment are actually 'business as usual' and are here to stay.

Leaders and managers are being challenged in ways never experienced before and *Career Pathways* are no longer clear, defined and predictable.

Engaging in the Career Intelligence™ Intensive one-day workshop provides participants with the knowledge and skills to strengthen their current executive leadership impact and offers the opportunity to be strategic in the design and execution of the career path that, up to this point, may have been lost in all the 'white noise'.

Implementing *The Six Essential Elements for Career Success* and participating in the post workshop Coaching Session invariably develop in participants a new level of self-knowledge, personal trust and a self-confidence that is grounded, stable and resilient.

OUTCOMES

AS A RESULT OF THIS PROGRAM PARTICIPANTS WILL:

- Understand the correlation between leadership impact (regardless of level) and career success
- Identify and assess current contributions, strengths and behaviours to consolidate and accelerate career progression
- Understand and seek roles and work environments that are right for you
- Leverage political nous and social intelligence to read organisational and external realities
- Communicate with confidence, strength and commitment
- Implement the career action plan created during the program
- Draw on the Six Essential Elements at any time to tailor a personalised leadership and/or career plan for your next senior leadership role.
